

**WELCOME**

ROTI MODERN MEDITERRANEAN

## WE BELIEVE IN

### **ANTIBIOTIC-FREE CHICKEN**

Our chicken is antibiotic-free and grown without hormones because when farmers take care of their animals, they don't need those things. The people who eat our chicken also don't need those things.

### **FRESH SALMON**

Our sustainably certified salmon arrives fresh to the restaurant every day - that means never frozen — ready to be hand-filleted by our team.

### **ORGANIC CHICKPEAS**

We use only organic chickpeas from our partners Hinrichs Trading Company. They've never seen the inside of a can — and to us that makes all the difference!

### **BUHOLZER FARM FETA**

The Buholzer family has been perfecting cheese making for four generations. We buy whole blocks of fresh feta in brine and crumble it in our restaurants because it's creamier and fresher.

### **100% GRASS-FED BEEF**

We partner with JBS Ranchers because of their 100% grass-fed practices. Grass is better for the cows, better for the environment, and ultimately better for you and your taste buds.

### **ROTI FALAFEL**

Made with organic chickpeas, our secret recipe is gluten-free to ensure more people can enjoy this Mediterranean delight.

### **REAL SALT**

Harvested from the caves of ancient seabeds in Redmond, Utah, our all-natural salt is lower in sodium and helps enhance the flavors of our food.

### **LUNDBERG RICE**

Our partners at Lundberg Farms grow sustainable, non-GMO wild and whole grain rice. It's simply the best rice available!

# TRY OUR MODERN CLASSICS

---

## MEET OUR NEW **PITA BREAD**

Our NEW pita recipe goes back 80 years, to a small bakery in Israel where it was made in small batches to ensure its high quality and wholesomeness. With only 5 ingredients, it's a symbol of what great Mediterranean food is...simple, delicious, and made with love.
